

The Arcane Understanding of the Revelations to St. John

Comparison by Dr. Edward OM
Edited by Hironnelle LaTour

N.B.

Please read this with Real Love in your heart and remember that we are all responsible for our own thoughts and actions from the information that we obtain. Karma is and always will be a predominant cosmic law to keep things in balance.

And, please heed the saying, “Be prepared for I will come as a thief in the night”, for as is often extolled, there are multitudes of parables having various arcane information within for those who honestly and truly seek the “Gnosis” of life. If we are not working on growing that “Gnosis” within ourselves so as to evolve as best we can individually, we will devolve by stagnation to our lower baser bio-instincts (our animalistic behaviour patterns) as depicted by the various cultures that depict human bodies with animal heads.

At this moment in history, we may well be in Kali Yuga of our root race, but we do not necessarily have to die from it. Collectively, we can move mountains but individually we simply feed separated Chaos that sooner or later finds its own “Totality”; with the New World Order seeming probable.

Having a deeper understanding of the “Seven Deadly Sins” and how they were originally transmitted to the masses will help us to better understand some of the message that John sends us concerning that which will happen and why.

And for the non-Christian reader, where-ever we see the word “Christ” you can replace it with the messiah or messenger from your religious culture. They are all the same manifestation of the energy of OM that was fully awakened to enlightenment and attained “Buddha-hood” by the “Soul” in question.

What is OM ?

The Totality of Primary Consciousness, which can be defined as Real Love energy in perpetual motion.

Energy, as we know, has both voltage force and amperage oscillation, meaning its rates of speed and ways of moving are variable

This energy has three qualities that we as humans should see manifested as we reflect back the movements/speeds. “We” are the animated interfaces or sensory organs of OM in the “here and now” of the earth and its solar system.

1. Conscious...that is to say, aware of itself in all aspects that we, as humans, commonly sense things. As Souls experiencing life in human suits, we are awakening to a higher consciousness or, put another way, to the awareness of OM.
2. Truthful...energy that is in everything everywhere as the law that we are starting to understand as a cosmic or law of nature. Gravity is the best known, if not entirely understood by all. OM energy is balanced and constantly seeks rebalancing when askew. These laws are truths whether or not we are at the point of understanding them.
3. Unconditional...in that the energy is not tyrannical, patriarchal, dictatorial nor in any way expectant. It is an energy that gives out and expands in the Fluxional way. It operates via a reflection from within. Thus the expression, “God is within you”, meaning God is here, being your Soul, itself the spark of OM within. It seeks nothing but to Really Love as it expands, gnosis and requites or is required in that love.

Real Love in perpetual motion, that, if absent, in any given situation, is reflected as the simpler, baser/bio-nature that makes up all cells at genesis. The Soul/spirit can reason within karmic laws while the bio-cells live under purely cosmic laws. Our DNA may contain our karmic past, but our Soul when awakened, can transcend it.

This is what the true seekers of “Gnosis” strive to find on their road to enlightenment. Please remember that all things exist in varying degrees.

Here are a few issues to consider before undertaking readings on Anthropological Theology and Mystical Esotericism.

Evolution of Words and Things

Humans have known for eons that there are multitudes of cultures and religions that pay homage and reverence to a multitude of deities. No one can negate the other one, yet we can study their history to discover their origins and their place in contemporary life. Much of what we in the west know of them, has come from eastern cultures and for anyone, east or west, to say his or her God is this or that, compared to others’, is simply delusionally thinking. Their own levels of narcissism, which are worse than viral pandemics, have outstripped their rationale for what our Creator is and how the cosmic laws (that we know of) balance themselves in movement.

Anyone who has read, listened to intensely, or studied the old verses of the New Testament, will realize that the God portrayed there is simply not someone any sentient being would want to have as the Creator. Simply put (and yes these are my words) he is maniacal. The description that is given of him is definitely in line with the descriptions that come from ancient times of the dark side of Saturn. This side the mystics called Chavajoth; the light side they termed Jehovah. Then again in the OT there are occasions when he is asked his name and he replies, “You do not know me as Jehovah”. A neat slip of the tongue or was it Freudian? In any case, rest assured the God in the OT was not, is not and never will be our Creator because evil or lack of love is not everywhere in all things. As we mentioned previously, we will use the word “OM” to describe, ‘neuro-linguistically’ that which is the “Totality” or any of the names that you feel relaxed in using to describe the one that is “The One Creator Energy”.

Words are one of the challenges with which we are all born. Perhaps one day we will all hum and be better understood. Although many would have us believe, as they play on the names being used, that this one is Greek while another is Egyptian, therefore one came before the other. Such is not the case, for just as the indigenous

peoples of South America have ancient similarities with those in other parts of the world and vice versa, all come from the same root. Similarly, the present myriad of cultures and religions all have the same roots that pre-date the OT and even the oldest Vedic writings.

Atlantis, the continent of millions of souls, existed before Plato wrote of the island remnant in his time. It dates back some 400,000 years ago, and while no physical artifacts are known, just as no one saw a soul, it does not mean it did not exist. It has simply yet to receive the stamp of approval from material scientists. In the meantime, those that study spirituality know what they know and live in that knowledge; not as smarter beings than others, but as enlightened ones that share the Real Love OM has for us all.

So, please, do remember that the word, “Lord” is not OM, that “God” is not OM, nor any combination thereof. “OM” is “OM” (OM is suppose to be where the heart is) and the others are manifestations of that part of OM that has been used to describe that deity, be it a Lord, or a God or an Angel, etc. Just as we all have a soul within us that is, in fact, a spark of OM, so also do each of these deities manifest a particular part of OM.

Of Deities and Messengers

In the case of Angels, these messengers have been described for eons, yet as science has yet to weigh or measure them, they are not allowed to exist in the physical realm where we, as Souls, are experiencing life in human suits. Angels are the consciousness essence of the Deity to whom they report. Report, yes, for all things are organized and in various ways hierarchical least chaos ensue. The transmission of this consciousness is much like we know as telepathy in that it is messages trying to get to us to help us be all that we can. And yes, just as each positive energy pattern of a planet has an Angel, so will its negative or dark side have one. It is not malicious, but given our own duality and lack of understanding these paradoxes of life, we see them as such. Our own inner egos seek to have and to live in Paradise right here and now, without actually experiencing or experimenting living life as we are, known as living in the ‘now’, thus awakening the soul within to the enlightenment of life of OM as Real Love.

Something to contemplate is that intelligence is defined as the manner in which we use our capabilities to face our challenges. This all comes through awakening to enlightenment. So we must listen, not to our outer egos but the inner messengers. We must insure that we understand the true messengers for there are in fact

counterfeit spirits about; namely egos. Understanding this will help us better grasp karma and past lives while living as sentient beings in this life.

Egos, Virtues and the Super-Ego and the Id

As stated previously, we all carry the egos within us that we have created over lifetimes of experience and experiment while living as a soul in a rented human suit. The egos are to our biology what our virtues are to our spirituality. Thus the question becomes: are we choosing to live a more innate, defaulted process of animalism or to face the challenge consciously and live as a soul spark of OM on earth doing the best we can, consciously as a sentient being? In the picture of who we are we must consider the Wall of the Super-Ego police-person and our Soul-Id that sits behind it seeking its collapse. The Wall was constructed over many previous lives but mostly in the years of this present one and is a block to being all that we can. This Wall is where all the various allegories originate that we see in so many of our sacred writings. For messages have always been passed down from generation to generation in an open yet tacit manner for the true seekers of gnosis to find. The egos themselves are perpetuated similarly, but affect us only when we stop or ignore our search for the gnosis of life.

Multi-Universe and Multi-Dimensions and our Various Levels of Being

On the metaphysical side of the sacred elements with which we work, we come to understand that there is more than just this dimension to the multi-universe. Therefore, when we read any passage it can be more often than not reflective of, or addressed to our other levels of “Being”. This means that in the writings considered “prophetic” there are various parts of us that will understand the messages at a deeper, yet complimentary level. So what we may understand in the simplistic physical sense with our brain-mind make up, it can and does come to be understood at our spiritual or soul-spirit construct. One does not take away from the other, but in fact enhances our understanding as we consider the dualities and paradoxes of our lives. Thus, as we read about things that are to come, we can begin to see how on a geophysical level there are some astronomical changes that will take place. At our souls’ level, there are some very much enlightened aspects we tap into that are precipitated by the astronomical forces through these geophysical changes. We are starting to understand the “Cosmic Dance” as it relates to our being in the here and now. These same aspects also occur at other levels and within other dimensions or realms that we have yet to understand; better said, to which we have yet to

awaken. When someone becomes disdainful of these concepts, it is due to frustration with the present conditions of life on our planet and our loss of control of everyday situations. It is this loss that fuels the present narcissistic epidemic. Thus, when knowledge becomes power, it is in fact, each and every one of us giving away our power for a few pieces of silver. (Sounds familiar, doesn't it?)

Numerological Considerations

As we work through the passages of sacred writings, we come upon a fascinating variety of numbers; sometimes speaking to us and at other times befuddling. As most of us realize, numbers are paths that lead to understanding music, words, and yes, seemingly hidden meanings. Seemingly, since they were not set up as such, but to express concepts we need to understand from our spiritual side. Think of it as being as if we met another planetary being, then how would we communicate? Numbers are the simplest means of expression as they relate to sound and we will come to see the use of the number 7 as the manner in which all things are organized in relationship to the seven planetary Gods that govern our 7 days of the week, and so on.

Then there is the infamous number 12 which we all understand as the 12 months of our year in the astronomical sense. Yet did we know that it also relates to the 12 elders that set the patterns for our individual energy centers or Chakras? Yes, we did say 12 Chakras that we suggest you investigate to better understand their significances. Suffice it to say, the number 12 becomes 24 Lords in the Revelations in reference to the duality that we as humans in this dimension understand as being “good or bad” or “positive or negative”, etc. These Gods/Lords/Elders are perhaps the least understood and yet of the utmost importance to our daily living conditions. They are the ones (in their planetary configurations) that create and set the energy wave patterns (emissions) that we receive in our physical bodies. These ultimately mesh with our endocrine system to produce the hormones that keep us alive both physically and psychically. This aspect alone will help us better understand just how and why astrology actually works on all of us under the influences of our solar system. The Angels are the consciousness aspects of either the planetary Gods or the Elders and they help to check on things to see how they are functioning. All of these deities are “interfaces” of OM just as we are the “animated interfaces”.

Christification and not God-Magic-Son

More often than not, given our present personalities' states, we seek to find solutions to all things from without ourselves. As we are all part of the "Totality of Primary Consciousness", it is to our advantage if we have a better understanding of what is going on inside. As we will come to see, John, the author of The Book of Revelations, attained those levels of awakened enlightenment through consciousness of the gnosis of life. Jesus of Nazareth became Christ Jesus as he ascended to the regions of "Being" that so very, very few had attained before and have reached since his own "Christification". As the victors of war write the history it suited them well to play out the process as most of us have come to know as Christianity, at least in the "dead letter" sense. If we are perceptive and care enough to understand the gnosis of it all, we will see what Christ was telling John is the process of ascension is the state of Christification. Yet even here we once again see that some of the details have been left out for various reasons. Those that care to really understand can further investigate OM in the quantum sense of the Fluxion or the metaphysical sense of Pistis Sophia and they will find clearly that a female human being must be in union or communion with the male in order for this to happen. This point of sexuality is the most sensitive (people talk of money easier than their sexual habits), hidden, (as the male dominance or hierarchy in humanity hates to place the female on an equal footing with the male. This is the pure animalism of our baser urges.) and abused for control which is literally the power over others and starts at home and expands from there. (Just think of all the temple prostitutes or nuns of amoral behavior *et al.*)

After the ascension process, Christ Jesus completely explained it all clearly to the disciples and left it for us to gnosis what it all really means. Sages understand the "Nag Hamid papers" science does not. "Let he who has ears hear", means to understand what is being said, not just hearing the words. Christ would be the first male that any of us can think of (in the West) that would always place females on equal footing with males even if all too many males (and many females as well) do not like to think so for many reasons. In his writings, John will indicate some of these points. Christ knew of OM as well as knowing all of the deities that make up and process the flows and ebbs of energy in our great multi-universe. Christ literally knew "himself and knew the Gods", all being integral parts of the "Totality" and thus, of each other.

None of this is magic, unless we define magic as things that are simply awaiting understanding.

Astronomy: Hidden in Plain Sight

John will tell us that there are various astronomical situations that have occurred in the past, will happen again, and are part of our planetary configurations and movements. While we see them as allegories (not having studied astronomy or metaphysics), scholars that came before us and some of today's have studied his words. They can explain how these various patterns will affect us. John does not reveal what will happen exactly, for at times he is being told not to write, nor to reveal certain things lest they could also become information to be used in manipulation of the masses. Yet the patterns are all there and it is up to each of us to either choose to understand and make a conscious effort to make a change or ignore them. (As the masses have done for most of this present humanity's existence by living the consequences that evolution via unconsciousness brings.) Poor Old Saturn

Satan is quoted frequently in Revelations and at other times the word "devil" is used and occasionally we have Lucifer thrown in. To clarify, these are all different entities and thus of different energy emanations. The closest we have to Satan that explains some of the actions attributed to Satan is Saturn. The fact that Saturn is also known as the Lord of Karma helps us better to understand how some of the direct actions of Satan are really reflective of karma and in many cases, of retribution. Saturn would necessarily be one of the more prominent Lords or Gods as karma affects the life of every living organism that has soul memorization. (Meaning, that some living cells are purely biological and not spiritual in nature.)

The devil is a more apt a word to use when trying to convey the lack of conscious Real Love that our creator OM demonstrates to us as we breathe and live life here and now. The devil that we can study to learn and understand, is what Christ calls the counterfeit spirit that is part of each of us to some degree. It is the external manifestation of our own psychic aggregates commonly known as egos. Lucifer, on the other hand is an Angel or deity of light manifestation. His job within us is to help us see our way or the error of our ways (which is quite often and why he is considered our dark side) and help us continue on our path to Christification. For those interested, this is where the Red Christ of which we have read or heard, comes from.

Once again, it is words of which the majority of people do not have clear understanding or definition, so they default to what the consensus reality dictates, which of course is governed by the winners of the war and not those that seek to extol the truths at any cost.

Editor's note: We are showing The Revelations here in their Biblical *vis-à-vis* their metaphysical context. However, please realize that in the esoteric sense, we could and shall one day write it all to match the various levels of our "Inner Being or Soul". This would then take us through the 7 Chakras or 7 levels of understanding, so we would be able to compare it to the 12 levels of the astrological situations or configurations. This last one being the more insightful, for it would lead us to the "13th Eon" of metaphysical studies which would open the doors to the "gnosis of life" the widest to all. Assuredly, there exists also an even more prophetic one that describes the 22 Tarot Arcanum and finally the entire 33 degrees of Masonic knowledge.

I will confess that this writing, along with the Pistis Sophia (Christ teachings to the apostles after the ascension), are two of the most intriguing I have found. I would love to be able to work with kindred spirits in order to fully translate this piece with the gnosis that Christ extolled in the Pistis Sophia. It is not an easy undertaking, yet to attempt it is both very insightful and a labour of love. Ideally, an analysis of these writings is needed from a variety of perspectives, including:

1. Dead letter word, or what is presumed to be the meaning.
2. Astronomical interpretations cross-referenced to metaphysical aspects.
3. Using metaphysical precepts that approach it all from quantum physics.
4. Compare the cosmo-genesis dating back 400k years to the repetitive nature of the geological upheavals that have so far been identified.
5. Compare it all to the timing of the various electro-magnetic changes that are known to have taken place over time and we surmise that are presently occurring.

When reading the comparison itself, you will sometimes see nothing written in the 2nd or 3rd column, the reason being that the information is straightforward and we chose not to re-write verbatim.

Disclaimer

Given humanity's historical past concerning all things known as "organized" religion, it will not be surprising that we see a lot of metaphysical aspects pointing fingers at it. Rest assured, it is not the "Real Love" aspect that is behind any culture or religion that we are "against", but rather its handlers or the system itself (mostly patriarchal and narcissistic). We are trying to bring all this to light for the masses in order that they can judge for themselves just how much skullduggery has gone on for as long as we can figure it out (as long as we have been here experiencing life in a human suit) and do what each one needs to do to be all that they can be.

We will ultimately see, whether we like and accept it or not; that the bases of the dominant religions (Judaic-Christian-Moslem) are built on a false premise, which we invite you to discover for yourself. Perhaps some will tell us/me that God will come and strike me for this apparent blasphemy, but very often the appearance is deceiving. If God of the OT is OM, then I, Edward, would rather end up in the Lake of Fire than live and support such demonic actions. We emulate the ones that we gnosise and consider the ones we would emulate. (I know Jehovah and Chavajoth for whom they are). The "killing until death and dead to remnants of our seed" God of the OT is not OM yet paradoxically, a part of OM! How can that really be? It can be understood only by study and knowledge, so please read further as it will be a "light" for your soul.

No, I don't like tyrannical, patriarchal controlling systems. As much as I may have somewhat of a bias against females for acting as they do for so long as primary narcissistic 'feed-supply' to the males, I have more against the males for the baser animal instincts by which they live; unbridled narcissism. Any organized religion, culture or group that has dominance over others in its beliefs needs to rebuild the foundation of its fundamental beliefs before it utterly crumbles like the house built in sand.

We will see later on that the God being referred to is Lord Mechelzidekv who oversees earth. The angel referenced here will be understood in relation to the energies we receive in our "Chakras". It, the 'angel', manifests from the various parts of our "internal being" that is actually a series of layers or dimensions.</p> <p>1:2 John being "ego-less" and awakened to enlightenment, was able to give testimony of his gnosis of these things without tainting the truth, all the while going against consensus reality. (The word Asia denotes that which is from the east and of which so little is known in the west. Even today we have a better understanding of the physical Asia; but little of its' really deep spiritual history.) John being awakened "which is" (as he is in this writing), "which was" (as he had been in past lives), and "which is to come" (how he will be yet again) these activated chakras are not lost when reincarnating life to life.</p> <p>1:5 JC was always truthful and that gave us much faith in what he said. We see here that it was with both God (the earthly manifestation) who we will see later and his Father a.k.a. OM. We then literally became as priests are to their churches, temples, etc., but with OM. Thus glory was given to Christ for showing us the way (actually the Christic way) to OM, and he would oversee/help us always. Once within or with Christ Consciousness, then it will be forever.</p> <p>1:7 All the tribes or those who have awakened the Chakras will mourn over his pain. All things in the cosmos are organized in order to avoid chaos leading to mayhem leading to self-destruction. A Lord God (a term also used) is the almighty one that is, was and will always be as such, and who we will meet later on. This is the one to whom Christ is referring.</p> <p>1:9 John writes of being a brother and partner with those to whom he speaks/writes, by choice and not in the terms of blood-lineage. These are known as brothers/sisters in spirit. Those that followed Christ were under constant oppression yet as a kingdom</p> |

The two-edged sword means that he can speak with a multitude of cutting words and expressions that get to the truth and heart of the matter. fell at his feet as dead. And he laid his right hand upon me, saying unto me, Fear not; I am the first and the last:

66:001:018 I am he that liveth, and was dead; and, behold, I am alive for evermore, Amen; and have the keys of hell and of death.

1:17 John, while actually having been “awakened” in all his Charkas, still did not feel as if he were of the enlightened state, especially of that which could communicate with Lord Mechelzidek-Christ. The inner higher being of John told him not to fret over his level of Being. John was actually in the presence of the First Christ and the one that would be the Last Christ. (That is to say, John’s own Christic Being; which is part of the Christified Soul Group having Lord Mechelzidek Christ Jesus as the leader in the sense of Christic Consciousness.)

1:18 The Living One denotes that once the soul is Christified it remains alive forever in the other dimensions. It is no longer subject to the various cosmic laws that can re-convert a soul back into crude chaotic primal energy. Christ had died and was resurrected forever as his Christic person. Christ has the keys to death and hell, for without the profound understanding of those levels of existence and the willingness to undertake profound physical and psychological labours, one cannot become a Christ. The work must be done first and we shall see what this entails a little later on.

The seven stars are the angels of the seven churches: and the seven candlesticks which thou sawest are the seven churches.</p> | <p>1:20 The seven angels are in fact the seven energies that emit the energy impulses to the charkas and are also intimately related to each of our planetary setups or the planetary Lords/Gods. While each of our main planets that govern the days of the week, have a planetary God there are also angels, which are the consciousness (Lord) of the planets made manifest. The angels are the energies that make sure we are in fact activating and working with our inner being to the best of our abilities. (We will later see the 24 elders that are in fact the astrological patterns that set out our each individual pattern; as required by karma etc).</p> | <p>1:19 Lord-Christ tells John to write as the scribe would. Much of this will be leading us into the astronomical realm, which is not as it appears.</p> <p>1:20 Here we clearly see the relationship of the seven churches/assemblies to the Charkas; each being an energy point on our spinal column and in direct relationship with our internal organs. It is part of our nervous system as well as being connected to our endocrine system. These are being identified here as the candlesticks/lampstands. Seven (7) is well known by both science and metaphysics as being the number of “organization”. All things are ordered in, or in the order of 7.</p> |

At this point, these are merely gentle chastisements.</p> <p>2:5 So, be conscious of yourself and remember your origins, with OM as the first love being paramount. Make amends and keep working on the first level of works, to the best of your abilities. (Each Chakra having specific works to be done in order to make it active.) Truly, if you fail in this, your inner Christ will remove the attributes of that Chakra and you will fall into perdition, as we can see within some humans now.</p> <p>2:6 A strong attribute that you do have developed, is your dislike of actions by a ruling class that has lost all contact with OM. Actually, those that lack Real Love or OM (the devilish ones, the slanderers against spirituality and things of OM), are about to imprison some of you, as a test of your understanding and resolve to succeed in your undertakings. For as the number ten is return of actions from the past, so must we allow and relive them until we have their gnosis. Be faithful to the death to yourself and to your higher being, Christ, in either the material sense or in the annihilation of the inner Egos. Do this, and Christ will help in your attainment of the crown or full enlightenment of the gnosis of life. This is the 7th or Crown Chakra.</p> <p>2:11 Let those that have their inner</p> |

Those who attain the activation of the second Chakra, sexual energy (as it is the basis of all the Chakra works to come), will not be harmed by either the second death in the material sense, nor in the sense of the death of the Egos.

2:12 To the governors/spirits of the like-minded ones who are working on their solar plexus or third Chakra let them know that Christ, who is capable of talking to and synthesizing the paradoxes of life, has the following to say:

2:13 I know your trials and tribulations and to which part of yourself you are awakened where karma of Saturn has its seat within you at your solar plexus. You show your faith in me by holding my name sacred. You did not deny me during the period that I stood alone against the lack of Real Love OM when I was martyred as Jesus, my faithful material being in human form killed while on earth where the laws of karma of Saturn are the

This teaches and propels you to create stumbling blocks (Narcissism) to your own sincere search for awakening and enlightenment as well as to eat things of sacrificial nature (which cannot be held as good by OM, for it is devoid of Real Love). At worst, you commit sexually immoral acts that are caused by your emotions, affected by your solar plexus reactions. These stun your aura by sapping your energy levels from psychological torments deep within.</p> <p>2:15 Our inner Christ will recognize when we believe in, and hold as valid, the teachings of those who would emulate the ruling class; those who have banished OM from their way of life.</p> <p>2:16 If we do not awaken to this situation to seek redemption, our higher being will create chaos (or “a chaotic situation”) within that will become a war of words spoken by us</p> |

This will place stress on our minds as one of the paradoxes of life.</p> <p>2:17 Let those who have their inner being awakened and are working toward understanding their gnosis of life, hear what Christ says to those kindred spirits of like mindedness (those seeking to be enlightened). The Beings who overcome this paradox, will develop the “gnosis of life” and they will be given, by their inner Being, the true name of their inner Being-Soul. It is written in the Book of Life and known by no other human being.</p> <p>2:18 To the governors/spirits of the like minded ones who are working on their heart, or fourth Chakra, let them know: Christ who is the son of OM, who has developed the piercing look into the soul of men, and has firmly planted his feet in the material world of earth, says,</p> <p>2:19 “Christ knows your trials and tribulations, your Real Love, the depth of your faith and service, along with your enduring patience as well as your latest works in the fourth Chakra</p> |

The sin (ego) of lust is what teaches, seduces and keeps those who seek enlightenment; to commit immoral sexual acts and eat things sacrificed to idols, both things that OM in “real-love form” is absent from as they are the simple baser biological processes.</p> <p>2:21 As the masculine/feminine within each of us awakens along the path of the Charkas, governed by the Kundalini within; our inner Christ gives us time to understand and repent where needed, especially in the area of erroneous sexuality. Christ consciousness is fully enlightened to the cosmic laws, with karma being predominant for us here on earth.</p> <p>2:24 None-the-less, as Christ does acknowledge of those who don't follow such a path, who are of liked minded in their works of the heart or fourth Chakra and who are not</p> |

By being conscious of our efforts we can repent where needed and live our zestfulness for life.</p> <p>3:20 Christ the inner being stands within us and knocks continually (the Wall constructed by the Super-Ego is thick); should anyone answer the call Christ will literally start to awaken within them and thus start the process of At-one-ment (atonement) with them.</p> <p>3:21 To those who succeed in awakening, Christ will grant them a seat forever as being At-one-ment with them; just as Christ did when he manifested OM.</p> |

4:1 After activating his Chakras, John found a doorway (often called the "Veil") to heaven, the higher dimension and other realms; and as happens esoterically he heard the sounds of music that was communicating to him; telling him to come and learn things that must be commensurate with his level of understanding.

4:2 Immediately, John was with his higher selves and the inner dimensional deities; a seat of reverence was set in the higher dimension and it was being occupied.

4:3 The one that sat there looked as if they were the first and the last; as there was a rainbow of the 7 rays of creation all around; glistening as emeralds. This "One" is firstly "Lord Mechezidek", in his aspect of "Christ." Secondly it is "Christ" himself as in

This is also importantly the configuration of energies during Tantric Yoga Sex practices.</p> | <p>Christ Consciousness and thirdly 'Christ-John' as the awakened and enlightened one. At this point we can see that the 'Trinity' is represented all in one 'Being' and more so, the inner divine ancient of days, known as the person's 'Pure Soul' aspect. With linear thinking, we may need to contemplate this for awhile, by developing 'quantum' thinking it will become easier to understand all of it.</p> <p>4:4 There was place for 24 to be seated around the throne; which were being occupied by 24 Elders also known as the Ancient of Days (ones that gnosis things since creation) and the dualities of the astrological Gods, clothed as pure spirits are in white; all of whom had full activation of their energy patterns noted by the crowns of gold.</p> <p>4:5 The main seat itself showed in fact the central point of creative energies of all the levels of hierarchies of our solar system: and it was clear that the 7 Chakras were in full activation as they received the communications from the 7 Spirits which is also of the 7 planetary Gods. With humans the Chakras are within,</p> |

What we are missing here is the process of, and the inclusion, of the female aspect needed for the whole Christification process to complete. This helps us to better understand the uses of the various descriptions and of just which deity(s) John is speaking of.</p> <p>4:9 And just as the four elementals proclaim their honor to he who has Christified, as witnessed by their seat in the circle of life eternal,</p> <p>4:10 The 24 elders kneel before Christ and worship him that has life eternal, and give their crowns unto Christ saying,</p> <p>4:11 Having attained your highest Being (in the temporal world), we will call you Lord, to receive our glory, honor and powers unto you; for thou are part of the creation of all things;</p> |

Notwithstanding science’s inability to predict and thus control these events, the one’s that study metaphysics do have a Gnostic understanding of it all.</p> | <p>6:1 John witnessed Christ opening one of the seals and heard as if it were thunder addressing him, one of the elementals saying, Come and witness the details.</p> |

And I beheld, and lo a black horse;</p> | | <p>a white horse (as nature itself) and he that had reached this level having his instrument or activation to hunt (survival) with; and a crown (also known as a existential part of the inner Being) for attaining this level was given unto him; and with this stage completed he went about continuing to gnosis and dissolve egos and be watchful of them.</p> <p>6:3 And when the second Chakra was activated, John heard the second elemental say, come and witness.</p> <p>6:4 John saw the part of nature intimately connected with gonads being depicted as red in color. The power activated by this opening is such that ‘peace in the sense of consensus reality’ could be disturbed by the one who attains its’ activation (via Tantric Yoga Sex). This is done by connection of the female Yoni with the male Lingham or sword, thereby creating conscious energy of ‘gnosis’.</p> <p>6:5 Activating the third chakra of the solar plexus John heard the third elemental tell him to come and witness. The nutritional value of barley is better than that of wheat, and given a little known fact today that wheat is a man-made grain from grafting etc, it was known by the more enlightened ones of yester-year that wheat was in fact greatly responsible of a multitude of emotional challenges from the solar plexus area, where our food is digested.</p> <p>6:7 When the 4th chakra of the Heart was activated, John heard the fourth</p> |

And power was given unto them over the fourth part of the earth, to kill with sword, and with hunger, and with death, and with the beasts of the earth.</p> <p>66:006:009 And when he had opened the fifth seal, I saw under the altar the souls of them that were slain for the word of God, and for the testimony which they held:</p> <p>66:006:010 And they cried with a loud voice, saying, How long, O</p> | | <p>elemental say, come and be witness.</p> <p>6:8 And when John looked he saw a pale horse representing the weakness of the heart chakra; upon which the energy of Death from Hell troubles the human, for this Chakra, unless consciously activated, is in fact dying of the lack of the proper Real Love of the person and for other person's. Love is not being requited. And the powers conferred to the ones that activate their heart chakra is that over a fourth of the earth to kill (let the truth be known). This explains the use of Tantric Yoga Sex, as well as, how words of penetrating consequences will affect the non-awaken ones egos. This will starve those that cannot be fed with the bread of knowledge of life, who will experience the first death which that of the soul body.</p> <p>6:9 When the fifth or throat Chakra is activated John saw the souls of the ones that were slain for speaking the Truth of OM, holding testimony of OM.</p> <p>6:10 These slain ones lamented saying, How long Lord of holiness</p> |

66:011:001 And there was given me a reed like unto a rod: and the angel stood, saying, Rise, and measure the temple of God, and the altar, and them that worship therein.

66:011:002 But the court which is without the temple leave out, and measure it not; for it is given unto the Gentiles: and the holy city shall they tread under foot forty and two months.

11:2 Treading (under foot) down the holy city over a space of 3.5 years which astronomically is about twice the path of the planet Mars to take. Mars being part of the justice system in cosmic parlance.

11:1 And John was given a reed as a measuring stick; and the angel stood straight saying, Rise and measure the temple of (your inner awakening at it's current level of attainment) God and the altar and them that worship therein. (Here we have a clear indication of what is known as the 'hierarchies' analyzing us as to our own individual level of Chakra activation; the Rod is actually our spinal column in which we must raise the Kundalini spirit to activate the various Chakras. Those that worship therein are the existential parts of our own being; our various soul bodies and minds that make up our entire Be-ing).

11:2 Do not measure the court as it is the karmic one to which all souls must address themselves at various points in their existence in order to have various judgments rendered; these are but the karmic processes of our soul; and not our soul's connection and kinship with OM. The court being given unto the Gentiles is simply that it is a prominent process for those who do not seek conscious awakening and enlightenment;

Life to life we are known by our 'works' as recorded in the Ashkash records; this is where faith is greatly strengthened by all sentients.</p> <p>13:11 John saw yet another beast coming from the earth, with two horns like a lamb (Christ) but speaking as the dragon does. Using the cloak of the lamb to shield who he really is.</p> <p>13:12 This is the false prophet or messiah convincing all that the first beast is in fact to be worshipped, just as we see world-wide with various narcissistic groups supporting the stronger narcissistic ones; which can be summed up as organized religions and their patriarchal hierarchy.</p> |

Here we see the use of 'magical data information' for dark purposes and how the Blasphemy against Tantric Sex is perpetuated. It is here that we learn of the esoteric meaning of Braphomet.</p> <p>13:15 He had his chakras activated and thus could animate the image of the beast, that both the beast and it's image would speak. Occult wise 666 = 18 which in the ‘Tarot’ is the Moon, emotions, and ‘esoterically’ the failure of proper actions in Tantric Yoga Sex, leading to descent into the baser biological reactions and thus perpetuating those baser emotions over enlightened virtues. Another way to calculate it is 6 being the challenge we put ourselves through in order to control our bio-sexual emotions or be controlled by them. 6 three times is the reconciliation of this aspect with our inner trinity.</p> |

66:014:001 And I looked, and, lo, a Lamb stood on the mount Sion, and with him an hundred forty and four thousand, having his Father's name written in their foreheads.

66:014:002 And I heard a voice from heaven, as the voice of many waters, and as the voice of a great thunder: and I heard the voice of harpers harping with their harps:

66:014:003 And they sung as it were a new song before the throne, and before the four beasts, and the elders: and no man could learn that song but the hundred and forty and four thousand, which were redeemed from the earth.

66:014:004 These are they which were not defiled with women; for they are virgins. These are they which follow the Lamb whithersoever he goeth. These were redeemed from among men, being the firstfruits unto God and to the Lamb.

14:1 John now sees the Lamb (resurrected Christic soul) standing unified of pure heart with 12 x 12 000 believers having their third eye activated in their forehead. The 12 astrological signs being represented.

14:2 John then heard various mystical sounds from within, being vibrations trumpeting news of various things;

14:3 John heard these vibrations as if it were a new song, being the first time he had awoken to these heights; and he realized that no one could learn what was sung except for those who were redeemed from, or had the full gnosis of 'earth', esoterically, having lived the gnosis of earth exoterically.

14:4 These Gnostic ones had practiced the art of Tantric Yoga Sex and thus were not defiled with "sex" (did not fornicate, which is simply the biological action of the baser orgasm action), thus all were virgins (or pure of intent and action). These are the ones that follow the Christic Path

At this point we start to learn a little more about the changes in the electromagnetic field that surrounds earth. Geophysically we know that earth has gone through and number of changes in the magnetic poles of earth. These changes have not been patterned, so we are unable to predict when the next one would be (I will come as theft in the night) manifested. When the EMR field is disrupted we get all the various kinds of events or changes as we are presently living, such as changes in weather patterns as well as changes (perhaps more subtle) in the psyche of humans.</p> | <p>16:7 Then John heard another messenger out of the altar say, Very much so, Lord God Almighty (Mechelzidek) thy judgments are true and righteous.</p> |

affect on their bodies (both physical and spiritual) they will start to blaspheme god, blaming it all on him, who has powers over all these things; and will not repent and give God glory. Here is not only a test of character but also the placing of the blame on the outside of ourselves. Having a god to accuse of things is really something contradictory to the narcissistic personality, as the narcissists see himself as god and thus, theoretically should be blaming himself. Thus one aspect of some future possibilities manifesting themselves will show to be one of the biggest challenges for all of us to deal with. Mass mayhem, fear and anger is needed in order to control the masses.

16:10 Then the 5th angel poured his vial on the seat of the beast and his kingdom went fully dark; and they all gnawed their tongues from pain,

16:11 And blasphemed the God of heaven because of their pain and still did not repent of their deeds. (Work to awaken or enlighten themselves.)

66:020:004 And I saw thrones, and they sat upon them, and judgment was given unto them: and I saw the souls of them that were beheaded for the witness of Jesus, and for the word of God, and which had not worshipped the beast, neither his image, neither had received his mark upon their foreheads, or in their hands; and they lived and reigned with Christ a thousand years.

66:020:005 But the rest of the dead lived not again until the thousand years were finished. This is the first resurrection.

66:020:006 Blessed and holy is he that hath part in the first resurrection: on such the second death hath no power, but they

20:4 John then saw the thrones and those as Gods sitting thereon, and they had judgment in their hands (metaphysically this would be the judges of karma whereby they keep the law of Katancia in balance against the “dragon et al” or planetary configurations in balance): and John saw the souls of those that were killed for witnessing Jesus the Christ and God Mechelzidek, who had not worshipped the beast nor its image, nor received a mark of it on their foreheads or hands; and they lived in communion with Christ for a thousand years.

20:5 But those that had not awakened their Chakras who had not enlightened themselves (the dead as it were) were not reincarnated until the thousand years had passed. This is the first resurrection in the evolutionary sense, for the enlightened ones no longer are under the karmic law of rebirth in the evolutionary sense.

20:6 Blessed and holy are those that have part in (have awakened to) the first resurrection: as such the second death has no power over them, but
